Dear Sir/Madam:

Supplemental Amendment

This supplemental amendment is being submitted to correct two typographical errors in claim 22 that was submitted yesterday.

The first correction requires amending "organic solves" to "organic solvent". The second correction requires amending "a temperature of 100°C to 250°C" to "a temperature of from 100°C to 250°C".

The arguments submitted on December 27, 2010 are hereby incorporated by reference and are applicable in this supplemental response since the amendments in this response merely corrects two typographical errors in claim 22.

It is believed that the claims after the current corrective amendments and the December 27, 2010 amendments define a novel and non-obvious invention, particularly in view of the explanations and the Declaration submitted on December 27, 2010, and their allowance is respectfully solicited.

Respectfully submitted

/Kevin D. McCarthy/
